

Instructions for your T&T Clubbers to move forward at home

If your clubber is working through the handbook:

- Record them saying their verses...they **MUST** say the reference and verse with no more than 2 helps. They're also required to complete activities for each section. For their Silver and Gold sections they can **NOT** receive any helps. Email me the video and pictures of all completed activities and the page that the leader would sign for that section. I will enter those sections into the Awana database and track their progress from home.

If your clubber is working through the green folders:
