

Resident/Intern Application

Thank you for your interest in our Residency/Internship program. Community is committed to leading people into a growing relationship with Jesus. We are also committed to helping the next generation of church leaders gain experience that will fuel their passion for serving God in full-time vocational ministry. Being a part of Community in this role will provide hands-on, practical experience in the desired area of ministry and leadership and guidance from our staff.

This questionnaire is an important tool for us to get to know potential candidates better.

Please don't think you need to show that you've "arrived." What's important to us is that you have potential, are teachable with a strong desire to keep learning. Please enter your responses under each question and send to Craig Crynes at ccrynes@comunitycc.com.
